Hi Erin-

Thanks for your comments and for Paul and Mike's schedules, too.

Jean

Hi Jean,

Attached are my comments on the CWA JD and CRAM documents you sent out last week. Thanks for following up so quickly. My input is not technical. Paul Jones and Mike Finan are both out for the rest of this week and next.

Let me know if you have any questions about the suggestions I made.

Hi Erin-

Yes, we will address changes requested by EPA and ACOE, then submit a request for concurrence with the edited methods (not sure if by email or letter). I will include names and addresses of people who should receive the concurrence letter.

Thanks,

Jean

Hi Jean!

Thanks for forwarding this on to me. I'm sorry to just now be responding. I saw all this traffic last week but just didn't get to it. Paul is out for vacation and I'll be following up on the JD proposal while he is out.

I'm going to look at these right now and perhaps this question is answered, but if not, do you anticipate sending a letter to EPA and Corps formally asking for a stamp of approval on method?

Hi Erin-

I'm forwarding this because I misspelled your email address the first time around...

Thanks, Jean

Hello everyone-

Please find the attached documents discussing DWR's proposed methods for the Preliminary Jurisdictional Determination of Waters and Wetlands and the Wetland Functional Assessment, components of the 404 (b)(1) Alternatives Analysis for the Bay Delta Conservation Plan. Please send us your comments and edits to these plans as we discussed at our July 7, 2011 meeting. We will incorporate changes for a final review.

Thank you,

Jean
